

Summer Engineering Camps:

We have two age groups for each session: our Explorers ages 6-8 and Adventurers ages 9-12. There's a non-refundable registration fee of \$50 to reserve a spot and includes a camp shirt. Camp tuition is \$80 for the week.

We must have a minimum of 6 campers in each session, and there's a maximum of 20 campers. We will have a ratio of 1 camp leader/per 10 students.

Session	Date	Time	Theme	Age
Session 1	June 5–9	9 AM – 12:00 PM	What's Inside	6-8
Session 2	June 5–9	12:30 PM – 3:30 PM	What's Inside	9-12
Session 3	July 31– Aug 4	9 AM – 12:00 PM	3...2...1...Launch	6-8
Session 4	July 31–Aug 4	12:30 PM – 3:30 PM	3...2...1...Launch	9-12
Session 5	August 14–18	9 AM – 12:30 PM	Building: Fun Factory	6-8
Session 6	August 14–18	12:30 PM – 3:30 PM	Building: Fun Factory	9-12

- **What's Inside**

This is a fun construction/destruction camp. We will investigate engineering from the inside out. Campers will take things apart to see what is inside and discover how they can be put together again. This is a great camp for curious minds that always want to know how things work!!!

- **3...2...1...Launch**

Get ready to have a blast in this camp! Campers will investigate the physics of rockets, catapults, paper airplanes and more. We will examine the forces behind each soaring object, figure out how we can make them go faster and determine how the forces are at play in the world around us.

- **Building: Fun Factory**

This camp introduces our youngest engineers to fundamental concepts of simple machinery, cooperative building, and the assembly line process. Campers will enjoy constructing simple machines through open and focused exploration. They will enjoy making toys and building cities and houses out of different materials.
